- 2 5 plays that ship — merchandising · pricing within guardrails · personalisation with the creepy line drawn · fulfilment + inventory · returns + fraud
- 3 3 anti-plays to kill — fully automated dynamic pricing, surveillance personalisation, AI-only customer service
- 4 Achieve top-quartile SKU-store forecasting (<20% MAPE) with hierarchical models and clean promo data
- 5 Draw the pricing guardrails — exclude essentials in emergencies, avoid the personalised-list-price trap
- 6 Run 3 personalisation tiers with the creepy line drawn explicitly — health, surveillance, inferred protected characteristics
- 7 Protect brand voice with style-guide-as-system-prompt, 2 human edits, quarterly fingerprint audit, plus EU AI Act Art 50 disclosure
- 8 12-month roadmap with 4 trust trip-wires and an interactive builder for your CEO, CDO, or CMO
