|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>DURATION</b>      | 40 min · 8 modules · self-paced                                                                                                                                                        |
| <b>FORMAT</b>        | Audio-narrated slide chapters with synchronized progress tracking. Interactive end-of-course Markdown builder you take to the next meeting. Free verifiable certificate on completion. |
| <b>AUDIENCE</b>      | Hospital executives, CMOs/CMIOs, healthcare CIOs, clinical leaders, payer leaders.                                                                                                     |
| <b>PREREQUISITES</b> | No technical prerequisites. The material is written for business decision-makers and assumes only general business literacy.                                                           |

## Course Outcomes

- 1 Read the healthcare AI landscape honestly — FDA's 1000+ AI-enabled device list (~80% radiology) and where each use case actually sits today
- 2 Stand up ambient scribing the right way — HIPAA BAA, in-tenant processing, 3-sentence patient consent script, EU AI Act Art. 50 + DPDPA
- 3 Hold the clinical-decision-support line — Epic Cosmos / UpToDate / Tempus as augmentation, ABIM + AMA + CMS responsibility on the clinician
- 4 Deploy diagnostic AI with discipline — Aidoc / Annalise / Heuron, FDA SaMD pathway, radiologist-in-the-loop, 3 deployment patterns
- 5 Handle patient-facing AI safely — Air Canada Moffatt cross-domain, EU Art. 50 + HIPAA + India DPDPA, real consent + honoured opt-out
- 6 Draw the payer-AI line that survives — ProPublica + CMS scrutiny, approvals AI-augmented, denials require clinician-in-the-loop
- 7 Defend a 5-section compliance + ethics document with FDA / HIPAA / EU AI Act / NIST AI RMF / ABIM, AMA, CMS
- 8 Walk out with a 2-quarter hospital AI roadmap and 4 trust trip-wires (physician responsibility · patient consent · no AI-only denials · no set-and-forget)

# Table of Content

8 modules · 40 min of audio-narrated learning · each module ends with a Monday-move you can apply that week.

## MODULE 01

### The healthcare AI landscape

~5 MIN · NARRATED + INTERACTIVE

- FDA AI-enabled devices list: 1000+ by mid-2025 (~80% radiology).
- Microsoft+Nuance DAX ambient scribing widely deployed.
- Epic Cosmos/AI.
- Tempus/Flatiron oncology.
- Aidoc/Annalise/Heuron radiology.
- ABIM/AMA/CMS unambiguous: clinical decisions = physician responsibility. 3 failure modes (hallucination, bias, Air Canada).

## MODULE 02

### Ambient scribing

~4 MIN · NARRATED + INTERACTIVE

- Microsoft Nuance DAX, Abridge, Suki, Augmedix, DeepScribe — fastest-deploying healthcare AI use case. 2+ hours/day physician documentation saved.
- HIPAA BAA required.
- In-tenant/in-VPC processing. 3-sentence patient consent script.
- EU AI Act Art. 50 + India DPDPA.

## MODULE 03

### Clinical decision support

~5 MIN · NARRATED + INTERACTIVE

- Epic Cosmos+AI, UpToDate Clinical AI, Tempus/Flatiron oncology, Owkin multi-omics.
- ABIM+AMA+CMS responsibility line unambiguous: physician decides, AI supports.
- Stanford hallucination cross-domain = medical-error vector.
- Retrieval grounding + citations.
- Bias monitoring across demographic subgroups.

## MODULE 04

### Radiology + diagnostic AI

~5 MIN · NARRATED + INTERACTIVE

- Most-deployed FDA-cleared AI (~80% of 1000+ devices).
- Aidoc, Annalise, Heuron, Viz.AI, RapidAI.
- FDA SaMD pathway since 2017.
- Radiologist-in-the-loop required. 3 deployment patterns: workflow triage, second read, pre-screen.
- False-positive/negative trade-offs tracked.

**MODULE 05****Patient-facing AI + consent**

~4 MIN · NARRATED + INTERACTIVE

- Patient chatbots, symptom checkers, discharge instruction AI, post-discharge follow-up bots.
- Air Canada Moffatt cross-domain applies directly — coverage commitments + clinical statements = hospital's statement.
- EU AI Act Art. 50 + HIPAA + India DPDPA. 3-sentence consent script.
- Honour the opt-out.

**MODULE 06****Payer AI + the controversy**

~4 MIN · NARRATED + INTERACTIVE

- Most-contested healthcare AI use case.
- ProPublica + ABC News investigations of large-payer prior-auth denials.
- Class-action settlements through 2024.
- State AG investigations (CA, NY, TX) through 2025.
- Proposed CMS rules through 2025 on prior-auth AI transparency.
- The line: approvals can be AI-augmented, denials need clinician-in-loop.

**MODULE 07****Regulatory and ethical posture**

~5 MIN · NARRATED + INTERACTIVE

- 4-quadrant compliance: FDA SaMD + EU MDR/IVDR (clinical AI as medical device)
- HIPAA + India DPDPA + EU GDPR Art. 9/22 (health data protection)
- EU AI Act (Annex III + Art. 26/27/50/99)
- NIST AI RMF + CHAI + ABIM/AMA/CMS (ethics + voluntary). 5-section compliance and ethics document.

**MODULE 08****Making it stick: your hospital AI roadmap**

~4 MIN · NARRATED + INTERACTIVE · CAPSTONE BUILDER

- The principle
- The sequence · default playbook
- Trust trip-wires · 4 hard nos

## Taking This Further

The course is the starting point. The same content powers three concrete next steps you can engage Gennoor Tech to deliver inside your organisation:

### 4-week Pilot

- Fixed scope · fixed price · production artifact
- A working AI capability tied to the content of this course — set up on your data and tooling
- Suitable for: a single function or business unit ready to prove value

### Org-wide Rollout

- 90-day adoption programme · executive + frontline tracks
- Champions network, prompt libraries, governance pack, weekly office hours
- Suitable for: 200-5,000-seat rollouts of Copilot, ChatGPT Enterprise, or similar

### Continuous Build

- Quarterly retainer · embedded engineering + delivery + governance
- Multiple parallel AI initiatives sustained against an evolving roadmap
- Suitable for: large enterprises with portfolio-scale AI ambitions

## Get in touch

Tell us about your AI ambitions, your team, and the constraints you are working under. We respond within one business day across India, GCC, SEA, US, and EU time zones.
