Course Brief

DURATION	36 min · 8 modules · self-paced
FORMAT	Audio-narrated slide chapters with synchronized progress tracking. Interactive end-of-course Markdown builder you take to the next meeting. Free verifiable certificate on completion.
AUDIENCE	Pharma R&D directors, clinical operations leaders, regulatory affairs heads, pharmacovigilance + commercial operators.
PREREQUISITES	No technical prerequisites. The material is written for business decision-makers and assumes only general business literacy.

Course Outcomes

- 1 AI accelerates discovery and operations within GxP guardrails — patient safety + data integrity + regulatory accountability are non-negotiable
- 2 5 plays — discovery · trial operations · regulatory submission · pharmacovigilance + RWE · commercial + medical affairs
- 3 Honestly read the AI discovery disappointment pattern — AI accelerates early stages, not guarantees clinical success
- 4 Keep investigator + medical monitor accountable under GCP — AI assists, humans decide
- 5 Apply citation discipline to AI-drafted regulatory content — every citation verified (Mata cross-domain), Part 11 audit trail
- 6 Preserve medical review on PV — qualified safety physician's causality assessment cannot be replaced by AI
- 7 Run AI promotional content through MLR — off-label suggestions and unsourced claims are enforcement targets
- 8 Validate AI in GxP contexts — 4 validation components and audit-ready documentation before deployment

Table of Content

8 modules · 36 min of audio-narrated learning · each module ends with a Monday-move you can apply that week.

MODULE 01

The pharma + life sciences landscape

~5 MIN · NARRATED + INTERACTIVE

- AI accelerates within GxP guardrails
 - patient safety/data integrity/regulatory accountability non-negotiable
 - 5 plays
 - regulatory frame (FDA/EMA/ICH/GxP).
-

MODULE 02

Drug discovery

~5 MIN · NARRATED + INTERACTIVE

- 4 areas (target ID
 - lead gen
 - ADMET
 - protein engineering)
 - the disappointment pattern
 - validation discipline (wet-lab confirms, diverse held-out sets).
-

MODULE 03

Clinical trial operations

~5 MIN · NARRATED + INTERACTIVE

- 4 use cases (patient ID
 - site selection
 - protocol optimisation
 - data quality)
 - the GCP constraint
 - the consent question.
-

MODULE 04

Regulatory submission preparation

~5 MIN · NARRATED + INTERACTIVE

- 3 submission AI use cases
 - The citation discipline
 - 21 CFR Part 11 question
 - Honest scoring · 2 questions
-

MODULE 05**Pharmacovigilance + real-world evidence**

~5 MIN · NARRATED + INTERACTIVE

- The volume problem
- 3 PV AI use cases
- Medical review preserved
- Real-world evidence

MODULE 06**Commercial + medical affairs**

~5 MIN · NARRATED + INTERACTIVE

- 3 commercial + medical AI use cases
- Promotional compliance line
- The disclosure question
- Honest scoring · 2 questions

MODULE 07**Validation, audit + GxP fit**

~5 MIN · NARRATED + INTERACTIVE

- GxP applicability
- 4 validation components
- audit-readiness discipline
- quality unit involvement.

MODULE 08**Making it stick: your pharma AI roadmap**

~6 MIN · NARRATED + INTERACTIVE · CAPSTONE BUILDER

- The principle
- 18-month rollout
- 4 trust trip-wires

Taking This Further

The course is the starting point. The same content powers three concrete next steps you can engage Gennoor Tech to deliver inside your organisation:

4-week Pilot

- Fixed scope · fixed price · production artifact
- A working AI capability tied to the content of this course — set up on your data and tooling
- Suitable for: a single function or business unit ready to prove value

Org-wide Rollout

- 90-day adoption programme · executive + frontline tracks
- Champions network, prompt libraries, governance pack, weekly office hours
- Suitable for: 200-5,000-seat rollouts of Copilot, ChatGPT Enterprise, or similar

Continuous Build

- Quarterly retainer · embedded engineering + delivery + governance
- Multiple parallel AI initiatives sustained against an evolving roadmap
- Suitable for: large enterprises with portfolio-scale AI ambitions

Get in touch

Tell us about your AI ambitions, your team, and the constraints you are working under. We respond within one business day across India, GCC, SEA, US, and EU time zones.
