Course Outcomes

- 1 How to spot hallucinations fast — the textual signals AI invents vs verifies

- 3 The 3-pass review pattern — facts, voice, audience
- 4 How to build a quality bar that your team can apply uniformly — not just the senior reviewer
- 5 When to ask the AI to critique its own output — and when that's circular
- 6 The verification habit pattern — paired with one tool, daily, until it's muscle memory
- 7 A 2-week practice plan that turns "AI output" into "trusted draft"
