36 MIN

AI for Cybersecurity SOC

A ~36-minute SOC playbook for CISOs, SOC directors, detection engineering leads. 5 plays, 3 anti-plays, human-in-the-loop principle, AI's own attack surface, 12-month roadmap.

Course Brief

DURATION	36 min · 8 modules · self-paced
FORMAT	Audio-narrated slide chapters with synchronized progress tracking. Interactive end-of-course Markdown builder you take to the next meeting. Free verifiable certificate on completion.
AUDIENCE	SOC leaders, CISO directs, detection engineers, threat-intel managers responsible for SecOps capacity.
PREREQUISITES	Familiarity with SOC operations terminology. No coding required — the course focuses on operating model, not tooling.

Course Outcomes

- 1 AI is an analyst force multiplier — not an analyst replacement
- 2 5 SOC plays — alert triage · detection augmentation · investigation · threat intel · automation
- 3 3 anti-plays — fully autonomous response, AI-only detection, AI as substitute for SOC maturity
- 4 Run alert triage with shadow review on suppressed alerts — false-negative rate is the truth indicator
- 5 Layered detection retained — signatures + rules + AI augmentation (never AI alone)
- 6 Apply verification discipline to AI threat intel — Mata cross-domain (hallucinated attribution is real)
- 7 Limit autonomous response to narrow reversible scenarios — broader requires human-in-the-loop
- 8 Defend AI's own attack surface — 4 attack vectors, 4 defensive patterns, including model behaviour monitoring

Table of Content

8 modules · 36 min of audio-narrated learning · each module ends with a Monday-move you can apply that week.

MODULE 01

The cybersecurity AI landscape

~5 MIN · NARRATED + INTERACTIVE

- AI is an analyst force multiplier
 - not replacement
 - 5 plays
 - 3 anti-plays
 - NIST CSF + MITRE ATT&CK + ISO 27001 frame.
-

MODULE 02

Alert triage + noise reduction

~5 MIN · NARRATED + INTERACTIVE

- The volume problem
 - 3 triage patterns
 - 3 failure modes (historical bias
 - over-suppression
 - concept drift).
-

MODULE 03

Threat detection augmentation

~5 MIN · NARRATED + INTERACTIVE

- The layered model
 - UEBA in practice
 - LLM-augmented analysis
 - Honest scoring · 2 questions
-

MODULE 04

Incident investigation assistance

~5 MIN · NARRATED + INTERACTIVE

- 3 investigation use cases
 - Human-in-the-loop principle
 - 3 investigation failure modes
 - Honest scoring · 2 questions
-

MODULE 05**Threat intelligence synthesis**

~5 MIN · NARRATED + INTERACTIVE

- The volume problem
- 3 intel AI use cases
- The verification requirement
- Honest scoring · 2 questions

MODULE 06**Security automation + SOAR**

~5 MIN · NARRATED + INTERACTIVE

- The automation spectrum
- Safe autonomous scenarios · narrow
- Dangerous autonomous scenarios · common
- Honest scoring · 2 questions

MODULE 07**AI's own attack surface**

~5 MIN · NARRATED + INTERACTIVE

- The meta problem
- 4 attack vectors
- 4 defensive patterns
- Honest scoring · 2 questions

MODULE 08**Making it stick: your SOC AI roadmap**

~6 MIN · NARRATED + INTERACTIVE · CAPSTONE BUILDER

- 12-month rollout (triage
- investigation
- detection
- intel + SOAR)
- 4 trust trip-wires
- interactive Markdown builder.

Taking This Further

The course is the starting point. The same content powers three concrete next steps you can engage Gennoor Tech to deliver inside your organisation:

4-week Pilot

- Fixed scope · fixed price · production artifact
- A working AI capability tied to the content of this course — set up on your data and tooling
- Suitable for: a single function or business unit ready to prove value

Org-wide Rollout

- 90-day adoption programme · executive + frontline tracks
- Champions network, prompt libraries, governance pack, weekly office hours
- Suitable for: 200-5,000-seat rollouts of Copilot, ChatGPT Enterprise, or similar

Continuous Build

- Quarterly retainer · embedded engineering + delivery + governance
- Multiple parallel AI initiatives sustained against an evolving roadmap
- Suitable for: large enterprises with portfolio-scale AI ambitions

Get in touch

Tell us about your AI ambitions, your team, and the constraints you are working under. We respond within one business day across India, GCC, SEA, US, and EU time zones.
