36 MIN

AI in Manufacturing

A ~36-minute playbook for plant managers and VPs of manufacturing. 6 plays, 3 anti-plays, the OT/IT bridge filter, and 4 trust trip-wires. Voice: Emma.

Course Brief

DURATION	36 min · 8 modules · self-paced
FORMAT	Audio-narrated slide chapters with synchronized progress tracking. Interactive end-of-course Markdown builder you take to the next meeting. Free verifiable certificate on completion.
AUDIENCE	Plant managers, VPs of Manufacturing, operations leadership, process + quality engineers, IT/OT leaders.
PREREQUISITES	No technical prerequisites. The material is written for business decision-makers and assumes only general business literacy.

Course Outcomes

- 1 6 plant-floor plays that ship — predictive maintenance, vision quality, energy, scheduling, safety, throughput
- 2 3 pitches that disappoint — and the OT/IT bridge filter that separates them
- 3 How to design the OT/IT bridge that makes AI on the shop floor possible
- 4 The digital-twin reality applied honestly — what works, what's marketing, what breaks at production scale
- 5 The ISA-95 stack as the deployment frame — where AI plugs in safely vs where it threatens uptime
- 6 A 12-month plant roadmap with OEE and quality KPIs as the success measure
- 7 The trust trip-wires — worker safety, equipment integrity, regulatory disclosure

Table of Content

8 modules · 36 min of audio-narrated learning · each module ends with a Monday-move you can apply that week.

MODULE 01

The manufacturing AI landscape

~5 MIN · NARRATED + INTERACTIVE

- The principle
 - 6 plays that ship
 - 3 anti-plays
 - OT/IT bridge filter
-

MODULE 02

Predictive maintenance for plants

~5 MIN · NARRATED + INTERACTIVE

- 3 sensor coverage decisions
 - the narrative layer engineers act on
 - 3 project killers (data quality
 - alert fatigue
 - CMMS disconnect).
-

MODULE 03

Quality vision AI

~5 MIN · NARRATED + INTERACTIVE

- 3 messy challenges (lighting
 - drift
 - novel defects)
 - 3-stage operator labelling loop
 - false-confidence year-2 failure mode + 3 disciplines.
-

MODULE 04

Process optimisation with AI

~5 MIN · NARRATED + INTERACTIVE

- 3 signals AI surfaces (multi-parameter
 - drift
 - best-shift)
 - operator-led experiment design
 - 3 overfitting guards.
-

MODULE 05**Plant-floor supply chain integration**

~5 MIN · NARRATED + INTERACTIVE

- 3 signal flows (demand
- material
- equipment)
- 3 re-planning cadences (strategic monthly
- tactical weekly
- operational real-time)

MODULE 06**Safety AI**

~5 MIN · NARRATED + INTERACTIVE

- 3 use cases (PPE
- near-miss
- ergonomic)
- the line nobody crosses (support, not surveillance)
- 3 failure modes specific to safety AI.

MODULE 07**Digital twin: pragmatic, not megaproject**

~5 MIN · NARRATED + INTERACTIVE

- The megaproject trap
- 3 targeted twins that ship in 4-6 months
- 3 discipline rules (6-mo TTV
- 1 bounded use case
- plant engineers in design).

MODULE 08**Making it stick: your plant AI roadmap**

~6 MIN · NARRATED + INTERACTIVE · CAPSTONE BUILDER

- The principle
- 12-month rollout
- 4 trust trip-wires

Taking This Further

The course is the starting point. The same content powers three concrete next steps you can engage Gennoor Tech to deliver inside your organisation:

4-week Pilot

- Fixed scope · fixed price · production artifact
- A working AI capability tied to the content of this course — set up on your data and tooling
- Suitable for: a single function or business unit ready to prove value

Org-wide Rollout

- 90-day adoption programme · executive + frontline tracks
- Champions network, prompt libraries, governance pack, weekly office hours
- Suitable for: 200-5,000-seat rollouts of Copilot, ChatGPT Enterprise, or similar

Continuous Build

- Quarterly retainer · embedded engineering + delivery + governance
- Multiple parallel AI initiatives sustained against an evolving roadmap
- Suitable for: large enterprises with portfolio-scale AI ambitions

Get in touch

Tell us about your AI ambitions, your team, and the constraints you are working under. We respond within one business day across India, GCC, SEA, US, and EU time zones.
