

Gennoor Tech

TRAIN. INNOVATE. BUILD.

GENNOOR ACADEMY · SELF-PACED ·
55 MIN

Prompting Mastery

A 55-minute deep dive for power users and developers — structured outputs, chain-of-thought, few-shot, evaluation, and the prompt-library habits that compound.

Course Brief

DURATION	55 min · 8 modules · self-paced
FORMAT	Audio-narrated slide chapters with synchronized progress tracking. Interactive end-of-course Markdown builder you take to the next meeting. Free verifiable certificate on completion.
AUDIENCE	Power users, developers, AI engineering teams, knowledge workers going deeper, internal AI champions.
PREREQUISITES	Comfort with technology and product workflows. No coding experience required to follow the material; helpful for the hands-on takeaway.

Course Outcomes

- 1 Structured outputs that survive downstream parsing — JSON, XML, tables, citations
- 2 Chain-of-thought prompting — when it helps, when it harms, how to constrain it
- 3 Few-shot patterns that lift accuracy without bloating tokens
- 4 How to build and curate a prompt library — the habits that compound over months
- 5 Evaluation framework — how to know your prompt is good without running 1000 trials manually
- 6 Cost + latency awareness — when to use which model, the 3-axis tradeoff (quality, cost, speed)
- 7 Power-user tactics — temperature, system prompts, response shaping, error recovery

Table of Content

8 modules · 55 min of audio-narrated learning · each module ends with a Monday-move you can apply that week.

MODULE 01

Prompting principles

~8 MIN · NARRATED + INTERACTIVE

- Two prompts · same task · different decades
- What changed · The model split
- The five principles that survived
- The one habit to drop
- Same task · two shapes · toggle to see
- Before chapter 2

MODULE 02

Structured outputs (JSON)

~7 MIN · NARRATED + INTERACTIVE

- The brittle pattern · One in twenty
- The fix · Structured Outputs
- Schemas as code · Pydantic + Zod
- A small distinction worth nailing
- Try it · Schema builder
- Before chapter 3

MODULE 03

Chain-of-thought reasoning

~7 MIN · NARRATED + INTERACTIVE

- The original result · Wei et al · January 2022
 - What changed · 2026 trade-off
 - The decision tree · 2×2
 - The over-use trap · audit your codebase
 - Try it · same task · four prompts
 - Before chapter 4
-

MODULE 04**Few-shot patterns**

~7 MIN · NARRATED + INTERACTIVE

- The failure mode · examples too similar
 - The fix · vary the SHAPE not the content
 - How many examples · less than you think
 - When few-shot still earns its place
 - Try it · example variety scorer
 - Before chapter 5
-

MODULE 05**Evaluating outputs**

~6 MIN · NARRATED + INTERACTIVE

- The moment every team hits
 - What an eval IS · three parts
 - The tooling · 2026 default
 - The test-set composition · don't only ship happy paths
 - Try it · mini eval runner
 - Before chapter 6
-

MODULE 06**Prompt libraries and reuse**

~5 MIN · NARRATED + INTERACTIVE

- Where prompts live today · honest audit
 - The file layout · four files per prompt
 - Ownership · every prompt has a named person
 - Versioning · prompts have callers, callers break
 - Try it · sample library viewer
 - Before chapter 7
-

MODULE 07**Edge cases and adversarial prompts**

~8 MIN · NARRATED + INTERACTIVE

- Incident 1 · EchoLeak · M365 Copilot
 - Incidents 2 & 3 · same shape, different surfaces
 - The kill stat · not outliers, the default
 - OWASP LLM Top 10 · 2025 revision
 - The defences · four that work in production
 - Try it · "Will this prompt leak?"
-

MODULE 08**Making your library stick**

~7 MIN · NARRATED + INTERACTIVE · CAPSTONE BUILDER

- The library that died · you've seen this
- Four things determine survival
- Pillar 1 + 2 · owner + ritual
- Pillar 3 + 4 · gates + ease
- The 4-week rollout
- Download your customised plan

Taking This Further

The course is the starting point. The same content powers three concrete next steps you can engage Gennoor Tech to deliver inside your organisation:

4-week Pilot

- Fixed scope · fixed price · production artifact
- A working AI capability tied to the content of this course — set up on your data and tooling
- Suitable for: a single function or business unit ready to prove value

Org-wide Rollout

- 90-day adoption programme · executive + frontline tracks
- Champions network, prompt libraries, governance pack, weekly office hours
- Suitable for: 200-5,000-seat rollouts of Copilot, ChatGPT Enterprise, or similar

Continuous Build

- Quarterly retainer · embedded engineering + delivery + governance
- Multiple parallel AI initiatives sustained against an evolving roadmap
- Suitable for: large enterprises with portfolio-scale AI ambitions

Get in touch

Tell us about your AI ambitions, your team, and the constraints you are working under. We respond within one business day across India, GCC, SEA, US, and EU time zones.
