Avianca cross-domain analog, Deloitte ACP Q4 2025 62%/31%); close cycle automation (BlackLine/Trintech 35–50% rec hours, Vic.ai/Trintech 85–92% routine accruals, Big-4 acceptance criteria, drafter/preparer/reviewer/approver quad-eye); audit + SOX (SOX 404 + COSO ERM 2024 + PCAOB QC 1000 + IAASB ISA 220, 3 controls: AI input/output review/tool documentation, EY 78% CFO concern); AP/AR/treasury/tax (Vic.ai/AppZen/Tipalti/Stamppli, Kyriba, Vertex/Avalara/Trintax, customer-facing AR quote-or-cut); standards landscape (IFRS 18 effective 2027, SEC AI disclosure, EU CSRD, India IndAS, MS Copilot for Finance GA Nov 2024); and the close — 2-quarter finance AI roadmap with interactive builder, 4 trust trip-wires, through-line: AI on routine work, quad-eye on every material entry, the controller still signs the close.
