Course Overview

For AI champions, business case authors, transformation leads, function heads making the case for AI investment, and finance partners reviewing AI cases. Most AI business cases fail not because the AI doesn't work — but because the case is built wrong (inflated benefits · missing costs · risk treated as zero). The 6-component framework finance respects: problem statement in business terms, benefits with the direct vs indirect discipline and 3-scenario modelling, costs across 7 buckets (licenses · services · internal team time · change management · data prep · infrastructure · ongoing operations), risk register with 5 named AI-specific risks and mitigations, financial metrics (NPV · IRR · payback) chosen deliberately per stakeholder, and a stakeholder map by name.

FORMAT: Self-paced · 8 chapters · audio-narrated slides · interactive end-of-course builder · free certificate on completion

Who Is This For?

1

Business + technology
leaders

2

Function heads +
transformation owners

3

L&D + internal trainers

4

AI-curious managers

Learning Outcomes

- 1 The 6-component business case framework finance respects — problem · benefits · costs · risks · financial metric · stakeholders
- 2 The 4 fail modes of typical AI business cases — and the 30%-haircut test that catches the optimistic ones
- 3 The 7 cost buckets (with the year-2 cost surprise) most cases miss — including the often-skipped internal team time
- 4 The 5 AI-specific risks every case must name + sensitivity analysis on 3-5 variables — the discipline finance respects
- 5 NPV, IRR, payback — which one for which stakeholder + how to get hurdle + discount rates from finance up front
- 6 The 4 CFO questions you must answer in 3 minutes — payback · worst case · derailment · month-12 success
- 7 The 4-quarter ROI realisation cadence that earns the next case credibility — baseline · activity · outcome · annual
- 8 A 2-week disciplined build cadence + 5 trust trip-wires + interactive design-doc builder

8-Chapter Curriculum

Self-paced, audio-narrated slide format. Each chapter ends with a "Monday move" the learner can apply that week.

01

The AI ROI landscape

CHAPTER 1 · 4 MIN · NARRATED + INTERACTIVE

- 4 fail modes
- 6-component framework
- 30%-haircut test.

02

Quantifying benefits

CHAPTER 2 · 4 MIN · NARRATED + INTERACTIVE

- 3 benefit categories
- productivity trap
- 3-scenario modelling (conservative
- base
- optimistic).

03

Quantifying costs

CHAPTER 3 · 4 MIN · NARRATED + INTERACTIVE

- 7 cost buckets
- year-2 surprise (retraining
- license drift
- adjacent use cases)
- internal cost honesty.

04

Risk-adjusted ROI

CHAPTER 4 · 4 MIN · NARRATED + INTERACTIVE

- 5 AI-specific risks
- 3-scenario ROI (worst
- base
- best)
- sensitivity analysis on 3-5 variables.

05

NPV, IRR, payback

CHAPTER 5 · 4 MIN · NARRATED + INTERACTIVE

- 3 metrics
- which one for which stakeholder
- hurdle + discount rates from finance pre-finalisation.

06

Stakeholders + CFO conversation

CHAPTER 6 · 4 MIN · NARRATED + INTERACTIVE

- 3 stakeholder categories (sponsors
- approvers
- influencers)
- 4 CFO questions
- pre-mortem.

07

Measuring after launch

CHAPTER 7 · 4 MIN · NARRATED + INTERACTIVE

- The realisation gap
- 4-quarter cadence (adoption
- productivity
- outcomes
- annual ROI)
- 3 discipline rules.

08

Building your own

CHAPTER 8 · 4 MIN · NARRATED + INTERACTIVE

- 2-week build cadence
- 5 trust trip-wires
- interactive design-doc builder for your CFO walk-through.
