HANDS-ON

Course Overview

This revolutionary 5-day bootcamp focuses exclusively on Microsoft Applied Skills — the new practical, scenario-based assessments that validate real-world capabilities. Unlike traditional certifications, Applied Skills prove you can actually DO the job. Complete 6 high-demand skills in just 5 days through intensive hands-on labs.

Why Applied Skills are game-changing. Employers increasingly prefer Applied Skills over certifications because they validate actual job performance, not test-taking ability. Each skill requires completing real tasks in live Azure environments under time pressure — exactly like on-the-job scenarios. This bootcamp is the FIRST to focus exclusively on Applied Skills, positioning you ahead of the curve in the job market.

The 6 Applied Skills

APL-3002: Build Generative AI Apps

Deploy Azure OpenAI models, implement streaming chat, add content filtering

APL-3003: Implement RAG Solutions

Build vector indexes, implement hybrid search, create retrieval pipelines

APL-3004: Build NLP Solutions

Text analytics, document intelligence, translation, and speech services

APL-1001: Deploy Azure Infrastructure

IaC with ARM/Bicep, network security, load balancing, monitoring

APL-2003: Deploy Cloud-Native Apps

App Service, containers, Kubernetes, CI/CD pipelines, auto-scaling

APL-5001: Secure Azure Workloads

Microsoft Defender, Key Vault, managed identities, RBAC, compliance

Who Is This For?

Job Seekers

Stand out with practical proof of skills

Career Switchers

Demonstrate real capabilities

Consultants

Validate hands-on expertise

Developers

Prove cloud implementation skills

Prerequisites

Basic Azure knowledge (AZ-900 level), familiarity with one programming language (Python, C#, or JavaScript), understanding of cloud concepts.

Ready to Prove Your Real Skills?

Join the first-ever Microsoft Applied Skills Bootcamp.
6 performance-validated credentials in just 5 days.
