COVERAGE

Course Overview

This 5-day instructor-led bootcamp covers all 13 Anthropic Claude courses — 380+ lectures condensed into a guided, hands-on format with live coding, exercises, and enterprise context that the self-paced courses don't provide. Every course module is covered in depth with real-world scenarios, Q&A, and practical application.

The self-paced courses take 30+ hours to complete alone. This bootcamp makes them stick. Instead of watching videos in isolation, you learn with an instructor who provides enterprise context, answers questions in real time, demonstrates real-world applications, and guides you through hands-on labs that go beyond the course content. You'll complete all courses and build production-ready skills in 5 days.

Claude AI Curriculum Map

Claude 101 Claude.ai 12 lectures · 1 hr	AI Fluency: Framework & Foundations AI Fluency 14 lectures · 1.1 hr · 1 quiz
Building with the Claude API Platform 84 lectures · 8.1 hr · 10 quizzes	Claude Code in Action Claude Code 15 lectures · 1 hr · 1 quiz
Introduction to Agent Skills Claude Code 6 lectures · 30 min	Introduction to MCP MCP 16 lectures · 1 hr · 1 quiz
MCP: Advanced Topics MCP 15 lectures · 1.1 hr · 2 quizzes	Claude with Amazon Bedrock Platform 85 lectures · 8 hr · 10 quizzes
Claude with Google Cloud's Vertex AI Platform 85 lectures · 8 hr · 10 quizzes	AI Fluency for Educators Education 4 lectures · 24 min
AI Fluency for Students Education 5 lectures · 30 min	Teaching AI Fluency Education 7 lectures · 36 min · 1 quiz
AI Fluency for Nonprofits Nonprofits 9 lectures · 54 min · 1 quiz	

Who Is This For?

 AI Developers Engineers building with Claude API, Claude Code, and MCP	 Business Teams Teams adopting Claude for productivity and AI fluency	 Educators & L&D Trainers rolling out AI fluency across organizations	 Cloud Engineers Teams deploying Claude via Bedrock or Vertex AI
---	---	---	--

5-Day Curriculum

Covers all 13 Claude courses with instructor-led depth. Schedule and session order are fully customizable based on your organization's needs and time zones.

01

Claude Foundations & AI Fluency

COVERS: CLAUDE 101 · AI FLUENCY: FRAMEWORK & FOUNDATIONS · AI FLUENCY FOR EDUCATORS · STUDENTS · NONPROFITS · TEACHING AI FLUENCY

SESSION A

Claude 101 & AI Fluency Foundations

- Claude 101: capabilities, interface, prompt craft, attachments, projects
- AI Fluency Framework: what AI can and cannot do, mental models
- Effective human-AI collaboration patterns and workflows
- Lab: Claude for business analysis, writing, research, and summarization
- Lab: Build a personal AI workflow for your daily role

SESSION B

AI Fluency for Teams — Education, Nonprofits & Teaching

- AI Fluency for Educators: curriculum design, assessment with AI
- AI Fluency for Students: research, learning, and academic integrity
- Teaching AI Fluency: designing AI literacy programs for organizations
- AI Fluency for Nonprofits: grant writing, impact reports, donor comms
- Workshop: Design an AI fluency rollout plan for your organization

02

Building with the Claude API — Part 1

COVERS: BUILDING WITH THE CLAUDE API (84 LECTURES, FIRST HALF)

SESSION A

Claude API Fundamentals

- Messages API: roles, system prompts, multi-turn conversations
- Model selection: Opus, Sonnet, Haiku — capabilities and pricing
- Streaming responses, token counting, and rate limit handling
- Lab: Build a Claude chatbot with the Python SDK
- Lab: Build a multi-turn conversation app with conversation memory

SESSION B

Advanced API Patterns

- Tool use and function calling with Claude
- Vision: analyzing images and documents with Claude
- Structured output: JSON mode, XML parsing, schema enforcement
- Lab: Build a tool-calling assistant that queries external APIs
- Lab: Build a document analysis pipeline with vision + structured output

03

Claude API Part 2 + Claude Code

COVERS: BUILDING WITH THE CLAUDE API (SECOND HALF) · CLAUDE CODE IN ACTION · INTRODUCTION TO AGENT SKILLS

SESSION A**API: Prompt Engineering, Caching & Evaluation**

- Advanced prompt engineering: chain-of-thought, few-shot, system prompts
- Prompt caching for cost and latency optimization
- Evaluation and testing: building evals for AI applications
- Content moderation and safety with Claude
- Lab: Build an evaluation harness for a Claude-powered application

SESSION B**Claude Code in Action & Agent Skills**

- Claude Code: terminal-based agentic coding assistant
- Project scaffolding, code generation, debugging, and refactoring
- Introduction to Agent Skills: building custom agent capabilities
- Lab: Use Claude Code to build a complete web application
- Lab: Create custom agent skills for code review and testing

04

Model Context Protocol (MCP)

COVERS: INTRODUCTION TO MCP · MCP: ADVANCED TOPICS

SESSION A**Introduction to Model Context Protocol**

- What is MCP? Architecture, transports, and protocol design
- MCP primitives: tools, resources, prompts, and sampling
- Building MCP servers with Python and TypeScript
- Lab: Build your first MCP server with tools and resources
- Lab: Connect an MCP server to Claude Desktop

SESSION B**MCP: Advanced Topics**

- Advanced MCP patterns: SSE transport, authentication, security
- Building MCP servers for databases, APIs, and file systems
- MCP server discovery, configuration, and deployment
- Lab: Build an enterprise MCP server connecting to a SQL database
- Lab: Build a multi-tool MCP server with authentication

05

Claude on Cloud Platforms & Capstone

COVERS: CLAUDE WITH AMAZON BEDROCK · CLAUDE WITH GOOGLE CLOUD'S VERTEX AI

SESSION A**Claude with Amazon Bedrock & Google Vertex AI**

- Claude on Bedrock: Converse API, Knowledge Bases, Agents, guardrails
- Claude on Vertex AI: model deployment, grounding, extensions
- Cross-platform patterns: when to use direct API vs Bedrock vs Vertex
- Lab: Deploy Claude on Bedrock with Knowledge Bases for RAG
- Lab: Deploy Claude on Vertex AI with enterprise grounding

SESSION B**Capstone: End-to-End Claude Application**

- Team project: Build a complete Claude-powered application
- Combine API + MCP + Claude Code + cloud deployment
- Architecture review: cost optimization, security, monitoring
- Team presentations and expert feedback
- Completion of all course modules completed

Flexible & Customizable: Session order, timing, depth, and industry focus can be tailored to your organization's specific requirements. For developer-only audiences, AI Fluency modules can be replaced with deeper API and MCP labs.

Platforms & Tools Covered

All Claude course content plus hands-on enterprise labs

- Claude.ai
- Claude API (Python SDK)
- Claude Code
- Claude Cowork
- MCP Servers
- MCP Python SDK
- Amazon Bedrock
- Google Vertex AI
- Claude for Chrome
- Claude for Slack
- FastAPI
- Docker
- Python
- TypeScript

What You Take Home

Complete Curriculum Covered
Guided completion of all Claude courses with instructor Q&A, enterprise context, and deeper hands-on practice

6 Lab Projects
Complete code — Claude chatbot, tool-calling API, vision pipeline, Claude Code app, MCP server, cloud deployment

MCP Server Templates
Production-ready MCP server boilerplate with Python and TypeScript, database connectors, and authentication patterns

AI Fluency Rollout Kit
Templates for designing AI fluency programs for teams, educators, students, and nonprofits based on Anthropic methodology

Certification of Completion

Gennoor Tech — Certificate of Completion
Upon completing all 5 days (40 hours), each participant receives a **Gennoor Tech Certificate of Completion** in "Development using Claude AI". Digitally signed by the Founder & Director. Validates completion of all 13 Anthropic Claude courses with hands-on proficiency in Claude API, Claude Code, MCP, and cloud deployment.

Designed & Delivered By

Jalal Ahmed Khan
Founder & Director, Gennoor Tech Private Limited
Senior AI Consultant and **Microsoft Certified Trainer (MCT)** with 14+ years of experience. Completed all Claude courses. Built production MCP servers, Claude API integrations, and multi-agent systems. Delivered AI programs for Microsoft, EY, IBM, Boeing, and 80+ organizations across 6+ countries.

12+ active certifications including AB-100, AI-103, AZ-400, AI-300, PL-400, GH-300. Multi-cloud expertise: Claude API, Azure OpenAI, Bedrock, Vertex AI. Open-source contributor with MCP server projects on GitHub.
M.E. Mechanical Engineering, Mumbai University.

Delivery Options

 **On-Site** — customized at your office |  **Virtual Live** — interactive via Teams/Zoom |  **International** — GCC, Africa, APAC, UK
