TRAIN. INNOVATE. BUILD.

GENNOOR ACADEMY · SELF-PACED ·
36 MIN

Azure AI Foundry Essentials

A ~36-minute builder's tour of Azure AI Foundry. Hub-project-connections, model catalog, identity, evaluation harness, deployment types, cost monitoring, 20-item production-readiness checklist. Voice: Emma.

Course Brief

DURATION	36 min · 8 modules · self-paced
FORMAT	Audio-narrated slide chapters with synchronized progress tracking. Interactive end-of-course Markdown builder you take to the next meeting. Free verifiable certificate on completion.
AUDIENCE	Business + technology leaders, function heads + transformation owners, L&D + internal trainers, AI-curious managers.
PREREQUISITES	No technical prerequisites. The material is written for business decision-makers and assumes only general business literacy.

Course Outcomes

- 1 The Foundry 3-layer architecture (hub · project · connections) and when raw Azure OpenAI beats Foundry — premature consolidation is overhead, late is rework
- 2 Model catalog navigation across 4 families (Azure OpenAI · open-weight · partner · custom) and 3 deployment types — picked on YOUR eval set, not vendor benchmarks
- 3 Identity done right: managed identity + Key Vault + private endpoints — making the wrong way harder than the right way
- 4 The 4 built-in Foundry evaluators (groundedness · relevance · coherence · safety) and the 3-pattern custom evaluator workflow
- 5 Deployment-type fit: serverless "d5M tokens/month · PTU "e10M · managed compute for open-weight · batch for async
- 6 Cost monitoring across Azure Monitor + Cost Management + Foundry dashboards, with 3 alerts that fire before invoice day
- 7 The 20-item production-readiness checklist with 3 disqualifiers nobody crosses (no managed identity · no eval flow · no rollback path)
- 8 4-section production sign-off pack + 4 trust trip-wires + interactive sign-off builder for the platform team

Table of Content

8 modules · 36 min of audio-narrated learning · each module ends with a Monday-move you can apply that week.

MODULE 01

Foundry architecture

~5 MIN · NARRATED + INTERACTIVE

- 3-layer architecture (hub
 - project
 - connections)
 - Foundry vs raw Azure OpenAI
 - migration path.
-

MODULE 02

Model catalog navigation

~5 MIN · NARRATED + INTERACTIVE

- 4 model families (Azure OpenAI
 - open-weight
 - partner
 - custom)
 - 3 deployment types
 - 3 selection criteria.
-

MODULE 03

Project setup and identity

~5 MIN · NARRATED + INTERACTIVE

- Why identity matters
 - Managed identity pattern
 - Key Vault for the rest
 - Private endpoints
-

MODULE 04

Evaluation harness

~5 MIN · NARRATED + INTERACTIVE

- Built-in evaluators (groundedness
 - relevance
 - coherence
 - safety)
 - 3 custom patterns
 - 4-step workflow.
-

MODULE 05**Deployment options**

~5 MIN · NARRATED + INTERACTIVE

- 4 deployment types (serverless
- PTU
- managed
- batch)
- when each fits
- 3 latency rules.

MODULE 06**Cost monitoring**

~5 MIN · NARRATED + INTERACTIVE

- 3 telemetry sources
- 3 alerts (daily
- forecast
- spike)
- 3 mandated tags (feature
- env

MODULE 07**Production readiness checklist**

~5 MIN · NARRATED + INTERACTIVE

- 20-item checklist (4 categories × 5 items)
- 3 disqualifiers (no managed identity
- no eval flow
- no rollback path)
- documented sign-off.

MODULE 08**Capstone — Foundry production sign-off**

~6 MIN · NARRATED + INTERACTIVE · CAPSTONE BUILDER

- The principle
- The sign-off pack
- 4 trust trip-wires
- Interactive · sign-off pack builder

Taking This Further

The course is the starting point. The same content powers three concrete next steps you can engage Gennoor Tech to deliver inside your organisation:

4-week Pilot

- Fixed scope · fixed price · production artifact
- A working AI capability tied to the content of this course — set up on your data and tooling
- Suitable for: a single function or business unit ready to prove value

Org-wide Rollout

- 90-day adoption programme · executive + frontline tracks
- Champions network, prompt libraries, governance pack, weekly office hours
- Suitable for: 200-5,000-seat rollouts of Copilot, ChatGPT Enterprise, or similar

Continuous Build

- Quarterly retainer · embedded engineering + delivery + governance
- Multiple parallel AI initiatives sustained against an evolving roadmap
- Suitable for: large enterprises with portfolio-scale AI ambitions

Get in touch

Tell us about your AI ambitions, your team, and the constraints you are working under. We respond within one business day across India, GCC, SEA, US, and EU time zones.
